GENUINE COMFORT

DELIVERING COMFORT CONSISTENTLY

Our local distribution centres are stocked year-round with your key PTAC models, allowing for economical shipping costs and quick replacement lead times.

We have warehouses in Kelowna, Calgary, Saskatoon, Winnipeg, Toronto, and Montreal.

As a 100% Canadian-owned and operated company, we are committed to supporting mechanical contractors from coast to coast to coast. Since 2011, we have proudly worked with numerous mechanical contractors in every Province and Territory, understanding your unique needs, and delivering great value to you and your customers.

We're focused on your success. That means delivering competitive pricing on reliable, high performance PTAC/Room AC/Monobloc units, and providing local inventory, great service and the industry's leading warranty. Our products are not affected by recent tariffs so no price increase surprises. You can focus on adding value to your customers while generating exceptional ROI for your business.

By distributing our own brand directly from our manufacturer, we eliminate any middle-man up-charges and supply-chain steps, which keeps money in your pocket. Our Genuine Comfort products offer the same quality at a better cost and with better value for you and your team!

Only 7 in 1,000 Genuine Comfort PTACs require a warranty call sometime within the first 6 years. We offer the most robust warranty in the industry; one year full parts and labour and 6 years ALL parts. Our products and after-sales service frees up your time to focus on more pressing hotel needs.

What our customers have to say...

"Genuine Comfort was great to work on for several multi-unit residential projects we completed together. The service and attention to detail was thorough including pricing, submittals, delivery coordination and post installation technical assistance. The product arrived as ordered, on site, and performed well. We would recommend Genuine Comfort to other contractors in need of any services or products they are able to provide."

- Norm Petrin, Owner, Petrin Mechanical Ltd.

"Everything went smooth with the supply and delivery of the VTAC units and accessories for our Living Water Resort addition, the units work great and are a perfect fit for the project"

- Roy Wilson, Maintenance, Living Water Resorts

"Great Product. Great Service. Great Pricing. Friendly People."

- Shane Knox, Owner, K Town HVAC & Propane
